### POLICY STATEMENT

#### A. General Provisions

1. With the passage of amended tobacco-related legislation by the State of Oregon in August 2017, Concordia University – Portland, like all Oregon colleges and universities, is required to document and enforce the following provisions of Senate Bill 745 which occur in the State of Oregon (*does not apply to Concordia’s Boise, Idaho campus*):
  - a. Persons under the age of 21: Possession or use of tobacco products and/or “inhalant delivery systems”, including e-cigarettes, on University property or at University-sponsored events by persons under the age of 21, is a violation of Oregon State Law and University policy and thus prohibited.
  - b. Persons 21 years of age and older: All persons entering the campus are required to comply with University smoking policies and posted signage as noted in the Student Handbook. In keeping with a wellness philosophy and the medical evidence that the use of any tobacco products and second-hand smoke is harmful to individual health, smoking is prohibited throughout the entire premises of the University with the exception of CU’s one designated smoking area. To prevent second hand smoke entering buildings, students are prohibited from smoking within 25 feet of any entrance.

## *B. Enforcement*

- If Concordia University discovers a violation associated with tobacco and/or inhalant delivery systems covered by state law, the University may confiscate related items, issue a warning, and/or assess monetary fines. In the case of repeated violations or noncompliance, the University may take additional disciplinary action, up to and including termination of student or employment relationship. The University reserves the right to confiscate, retain, and dispose of/destroy any and all tobacco-related items regardless of value or ownership in relation to violations of this policy and state law.

## *C. Copy of Policy to University Community Member*

1. Concordia shall make available to each University Community Member a copy of this policy.

### **REASON FOR POLICY**

The purpose of this policy is to ensure that Concordia University – Portland is in compliance with state and federal laws regarding the possession and use of tobacco products and inhalant delivery systems.
