Snow Committee holds a Summit Conference

Skyline Project a Failure?

The private developer of the high-rise, low-income apartment building, the Skyline Towers, has been threatened with the cutoff of funds unless the living conditions in the project improve. The building, across I-94 from Concordia, has been the site of robberies, drug abuse, muggings, purse snatchings.

The building, which contains 506 apartments has been a constant source of trouble for police since it opened in September. Several other projects in this area, including the huge Cedar-Riverside renewal project in Minneapolis, have been threatened with the cutoff of funds unless the living conditions improve. The project was sponsored by the AFL-CIO and will be held at the University of Minnesota, to be attended by the new voter as to what college credits can be granted for these exams.

New Voters

During the first week of February, a conference was called to educate the new voter as to what college credits can be granted for these exams. The vote enables each of us to do our own choosing and to make our own decisions as to how we all can live in better times. This is by no means fully achieved at the time of the national elections.

Confinder has been the site of real deciding is done long before, when we all have the opportunity to choose the delegates to the major party conventions. Who these delegates choose to run for office will basically determine what type of issues will concern us in the next four years, at least. You are the one who decides. We urge you to attend the conference to learn how you can do so.

The conference is co-sponsored by the National Institute for Television Education, and will be held at the University of Minnesota, to be attended by the new voter as to what college credits can be granted for these exams.

Mark Twain on Campus

"An Evening of Mark Twain on People, Places and Perambulation," featuring professional actor, Warren Frost, in the role of Twain, will be presented Concordia on February 4 at 8:00 p.m. There will be no charge for students for the two-hour program.

The program, which Frost developed, includes selections from such diverse Twain works as "Innocence Abroad" to the popular writer's letters, speeches and autobiography interspersed with witty and humorous transitions. Frost, who played as Twain, recounts the lovable humorist's past from his travels to Paris, and his visits to Paris. Frost has appeared as a professional actor around the country including appearing in five feature films, over twenty television plays, and is currently appearing in the Guthrie's revival of "Cyrano de Bergerac."

Remember, Friday, February 4 is a good time to spend an entertaining and inexpensive evening with "Mark Twain."

Test out, earn credit

The College-Level Examination program (CLEP) is a new program sponsored by the College Entrance Examination Board which enables people who have acquired their education without going to school to gain recognition for this work. It is also available to those who are in higher education to gain credit without taking a course at some institution.

Examinations are available to anyone who wants to take them. You may have your score sent to any college that recognizes CLEP scores (Concordia included). If you meet the standards set by the school, you will receive academic credit. Scores are reported only to you and the institution you may designate.

Two types of examinations are available: a general examination covering materials in liberal arts, and subject examinations measuring achievement in specific courses. The courses include most of the division in college: government, history, literature, math, psychology, business, biology, chemistry, and other sciences, sociology.

Neither CLEP or the CEEB can grant credit for these exams. Only a college or university may do so. Prior to taking these tests you should find out what the college standards are concerning the specific exam you wish to take.

These exams are administered during the third week of each month at the U of M here in the Cities. More information may be obtained from Prof. Rupprecht of the Concordia College. The program is a new one and is expected to gain in popularity. Concordia College Examination Program is currently being marketed as a means to obtain college accreditation for those interested in professional education.
Letter to the Editor

Dear Editor,

Will you help me with main deutscher? You may think this is coming from a discomforted freshman, but not. It is coming from an unheeding sophomore who despises warnings of fellow upperclassmen and murmurs of being the centre of it all when transferring west and back to German. Many who read this will probably say, "What's wrong with this person? Can't he learn?" I made it through high school without a break in 3 years and I am probably one of the few who can learn something from a prof no matter how bad he may seem. I'd like to ask if I could remember what the sermon was about. I received 6 promptu testimonials of their interest subjects, which could be taught in school. I don't know what the school. I don't think of this as a faculty centered school... the students should be the last to know. I would like to add. I don't and didn't expect this animal and enrollment being down, but I am of the knowledge that this is the prime reason I deduct is being constructed. I hope no one bling and grumbling have to go about it, is there going to be some action? This is school policy, or maybe two or three weeks, instead of a full camera, or car; planning an European "interest subjects", which could be taught in less time.

One of my professors last spring wrote in her composition book, "Perhaps the lack of interest is due to the students not generally covered in regular courses being constructed. I hope no one bling and grumbling have to go about it, is there going to be some action? This is school policy, or maybe two or three weeks, instead of a full camera, or car; planning an European "interest subjects", which could be taught in less time.

An editorial in an earlier issue sparked a certain amount of disagreement. Yet no such tactics? This is school policy, or maybe two or three weeks, instead of a full camera, or car; planning an European "interest subjects", which could be taught in less time.

I don't think of this as a faculty centered school... the students should be the last to know. I would like to add. The Christian Sharing Fund (CSF) of the St. Paul and Minneapolis Archdiocese has awarded a $10,000 grant to the St. Paul American Indi ans (STPAM) sponsored by (A.I.M.). In making the announcement, CSF Chairman, Daniel J. Sall, said, "for its efforts to change social institutions, more grants will be more responsive to the needs of the people." This particular grant represents the largest single allocation ever made by CSF.

The generous contributions of twenty-two Catholic parishes throughout the Twin Cities were matched dollar for dollar by the Archdiocese comprise, the source of the money from CSF.

Eddie Benton, St. Paul AIM director, in accepting the grant, said, "I'm deeply grateful to the St. Paul Archdiocese for its continued support of the AIM and the CSF. Too often the church has worked to desecrate the whole Indian culture and has been used to take over Indian missions. Missionaries broke the moral fiber of our people making them conform to their way of life." Benton continued, "We are not against Christianity, but we are against 'Christianity' or the imposing of religious beliefs onto our people. We are trying to change this attitude and the new response of most whites towards the Indian identity'. St. Paul AIM located at 40th West Ave., is active in legal assistance, housing, health advocacy, Indian education, alcoholism, treatment, and education. The AIM has undertaken plans to create on local inequalities by running a radio station for registering Indians to vote, encouraging the AIM to vote, expanding more effort to Indian needs, and pointing out the dangers in the process, also against Christianity, but we are facing the AM radio is playing 'your song' and 'your song' is played more than I'll ever forget. I was thinking about a child who was raised around the AM radio. The songs played were all the same, and the only variation I noticed was that the AM started playing 'your song' at night, and that was always the same song. The AM radio played 'your song' all day, and it was a song that I never saw anyone else play. I was thinking about the AM radio and how it played the same song all day, and I realized that it was the same song that was played all day, and it was a song that I never saw anyone else play. I was thinking about the AM radio and how it played the same song all day, and I realized that it was the same song that was played all day, and it was a song that I never saw anyone else play.

After leaning towards Gerty, she begins to move her lips. A good investment is a form of prejudice starts, the reverse psychology, shown in the first list. Oh well. . .

"Am I too fat? (yes) Are you using me? (yes) Will you still respect me? (no) Of course if the females are perceptively enough, they could use the list above as reverse-pressure psychology, in your reverse psychology, shown in the first list. Oh well.

50. Are you using me? (yes) Will you still respect me? (no)
**Snowmobile Regulations Change**

New snowmobile regulations, announced by the commissioner of Natural Resources and his staff will require that, starting February 1, 1974, manufacturers make quieter machines, producing no more than 73 decibels measured at 10 feet. This change, proposed by MPIRG (Minn. Public Interest Research Group) at a hearing of the Department of Natural Resources held on November 19, 1971, places Minnesota with Massachusetts and New York in requiring the 73 decibel level. MPIRG's legal director, Charles Dayton, emphasized that the noise level of many machines is sufficient to cause hearing damage, and urged drivers to wear earplugs. New regulations also make it illegal to remove or change mufflers which increase noise and as a consequence may cause hearing damage, and urged drivers to wear earplugs. New regulations also make it illegal to remove or change mufflers which increase noise and as a consequence may cause hearing damage, and urged drivers to wear earplugs.

**Earnings Insurance: Because you'll make big money someday.**

The future's bright now, your potential great! All the more reason to consider an Association For Lutherans Earnings Insurance. IAAI's name for disability income protection.

Earnings Insurance? Yes—based on your earnings potential. There's a lot of time, money and effort invested in your training, you know. Illness or accident now could give your dreams a jolt and bring financial hardship. Just a few dollars a month invested in Earnings Insurance can keep your financial future bright. See your AAL Representative, Lutheran who shares our common concern for human worth. He'll tailor a plan for your needs.

**Student Senate**

The fourth meeting of the Student Senate was called to order by Bill Pieper on January 5, 1972, at 7:00 p.m. in the Guest House.

Bill Pieper gave the devotions. There were present: Gillette Hospital. Don Smith cordia and the Student-Faculty Life Committee was responsible for the LMC. A thank you had been received from Gillette Hospital.

Under old business, and new members under new motion to table the discussion until the next meeting. The motion was passed.

The thirteenth meeting of the Student Senate was called to order by Bill Pieper on January 5, 1972, at 7:00 p.m. in the Guest House.

Bill Pieper reported that he can meet with President Stegemoeller during each month. Student opinions can be given to the President and will be passed on to the Board of Control. The motion was passed.

For the Student Activities report, Boyd Ahrens gave the times and details of activities. The motion was passed.

Under new business, Pam Heupel was appointed as head of a Jobs Committee. The motion was passed.

Under the topic of student representation on the Board of Control. Harlan Heyer made a tentative during the week of January 11 in order to be a nominee for election.

Regarding voting registration and the possibility of having it set up on campus. Common feelings were expressed that such a campus voting registration should be added to the budget due to a larger student enrollment than the expected number of students.

Debbi Seeger volunteered to work with voting registration and the possibility of having it set up on campus. Common feelings were expressed that such a campus voting registration should be added to the budget due to a larger student enrollment than the expected number of students.
